# Wireless Push to Talk Microphone Systems

## SHURE MXC420DF/C

### Cardioid Dual-Flex Gooseneck Microphone

- Compatible with MXC and MXCW conference units ONLY
- 10-pin modular lockable connector
- Dualflex gooseneck bends at top and bottom to accommodate shared microphone use by two meeting participants
- 20 inch (50 cm)
- Cardioid polar pattern (also compatible with MX-series microphone cartridges)
- Bi-color light ring indicates microphone status
- CommShield® Technology for improved RF filtering
- Foam windscreen included

## SHURE MXCW640

### Wireless Conference Unit

- 4.3 inch color touchscreen displays user controls, voting, or meeting information
- 10-pin modular lockable connection for MXC-series gooseneck microphones
- Built-in loudspeaker remains on when microphone is activated
- Speak and mute/function buttons with LED status indicators
- NFC ID card slot for participant identification
- Dual 3.5mm headphone jacks with volume controls
- SB930 removable rechargeable Li-Ion battery (included) provides over 11 hours of runtime

## SHURE MXCWAPT-A

### Access Point Transceiver

- Controls up to 125 MXCW640 wireless conference units
- Bi-directional wireless connection provides audio to and from conference units and enables real-time control of all settings
- Operates in 2.4 GHz / 5 GHz frequency bands, including DFS spectrum
- Automatic frequency coordination, interference detection and avoidance
- Dante digital audio (10 inputs/10 outputs)
- Analog audio input and output (XLR)
- One Ethernet cable for audio, control, and PoE power
- AES-128 encryption for enhanced privacy
- Display for basic system configuration without a laptop
- LEDs indicate power, wireless connection, and network status
- Includes wall / ceiling mounting plate

## SHURE MXCWNC5-US

### Networked Charging Station

- Accommodates up to 10 SB930 rechargeable batteries
- 5-segment LEDs on the unit display charge status individually for every battery
- RJ-45 Ethernet connection enables remote monitoring of battery charge status in hours and minutes via Microflex Complete Wireless graphical user interface
- Charges 10 batteries to 50% charge in 1.5 hours, 100% charge in 4 hours
- Selectable storage mode partially discharges batteries for long-term storage or shipment
- Includes hardware for wall and rack mounting
- Includes IEC power cable
