THE DESIGN OASIS

Our team at The Design Oasis is dedicated to providing clients with quality service.

We are available 24-hours a day, 7 days a week, because we understand the importance of planning and executing an event. We are always here to help, whether it is for delivery or pick up, or live technical support from one of our specialists. We are a one stop-shop rental company offering for a wide selection of lighting, video, audio, staging and other AV. Call us to schedule a tour of our warehouse and learn more about our products and services.

WE WILL ALSO DESIGN CUSTOM SOLUTIONS FOR YOU

We are available for consultations and sight visits to ensure that everything will work as planned.

With 3D Design we can help you show your clients the whole vision of how the show will look.

Creating and Designing detailed plots to provide a preview of the event. Nothing is better than having a plot that has been double checked before load in.

We will make sure you get the right equipment that is necessary for the event to become a dream.

We have the high end gear you need to make a big impression. We are available and knowledgeable to assist you with all your needs from tech support to pickup.

NEW

SHURE MXC420DF/C

Cardioid Dual-Flex Gooseneck Microphone

- Compatible with MXC and MXCW conference units ONLY
- 10-pin modular lockable connector
- Dualflex gooseneck bends at top and bottom to accommodate shared microphone use by two meeting participants
- 20 inch (50 cm)
- Cardioid polar pattern (also compatible with MX-series microphone cartridges)
- Bi-color light ring indicates microphone status
- CommShield® Technology for improved RF filtering
- Foam windscreen included

SHURE MXCW640

Wireless Conference Unit

- 4.3 inch color touchscreen displays user controls, voting, or meeting information
- 10-pin modular lockable connection for MXC-series gooseneck microphones
- Built-in loudspeaker remains on when microphone is activated
- Speak and mute/function buttons with LED status indicators
- NFC ID card slot for participant identification
- Dual 3.5mm headphone jacks with volume controls
- SB930 removable rechargeable Li-Ion battery (included) provides over 11 hours of runtime

SHURE MXCWAPT-A

Access Point Transceiver

- Controls up to 125 MXCW640 wireless conference units
- Bi-directional wireless connection provides audio to and from conference units and enables real-time control of all settings
- Operates in 2.4 GHz / 5 GHz frequency bands, including DFS spectrum
- Automatic frequency coordination, interference detection and avoidance
- Dante digital audio (10 inputs/10 outputs)
- Analog audio input and output (XLR)
- One Ethernet cable for audio, control, and PoE power
- AES-128 encryption for enhanced privacy
- Display for basic system configuration without a laptop
- LEDs indicate power, wireless connection, and network status
- Includes wall / ceiling mounting plate

SHURE MXCWNCNCS-US

Networked Charging Station

- Accommodates up to 10 SB930 rechargeable batteries
- 5-segment LEDs on the unit display charge status individually for every battery
- RJ-45 Ethernet connection enables remote monitoring of battery charge status in hours and minutes via Microflex Complete Wireless graphical user interface
- Charges 10 batteries to 50% charge in 1.5 hours, 100% charge in 4 hours
- Selectable storage mode partially discharges batteries for long-term storage or shipment
- Includes hardware for wall and rack mounting
- Includes IEC power cable

Lighting Consoles

**Grand MA3 Full Size
&
Grand MA3 Lite**

The grandMA3 full-size console is the flagship of the range, offering ultimate MA lighting control hardware for professionals who value hands-on flexibility. Featuring assignable custom and master areas, along with 120 physical playbacks and 16 assignable x-keys, it provides the most flexible playback platform MA Lighting has ever produced.

**Grand MA2 Ultra Lite
&
Grand MA2 Lite**

The grandMA2 ultra-light mirrors the full network performance of the grandMA2 series with controls identical to larger consoles. It counts with 4,096 parameters and 6 DMX outputs.

**High End Systems
Road Hog 4**

High-resolution display providing ample space for customized screen layouts with one additional video output.

Obsidian NX 1

The NX1 offers a 10.1" HD multi-touch screen, 4 assignable encoders, 10 motorized playbacks with extra buttons, an additional playback, and a hybrid function key array.

**Leprecon LP624
&
Leprecon LP612**

Available in 12 or 24 channels, the LP-612 and LP-624 consoles come equipped with DMX and Microplex.
